

Rizon
SummitCraft

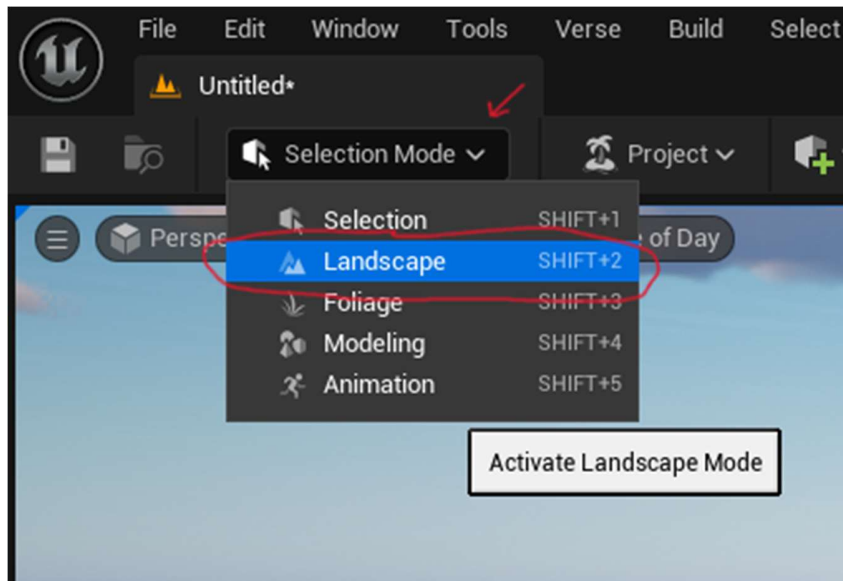

Optimized for Fortnite

Documentation

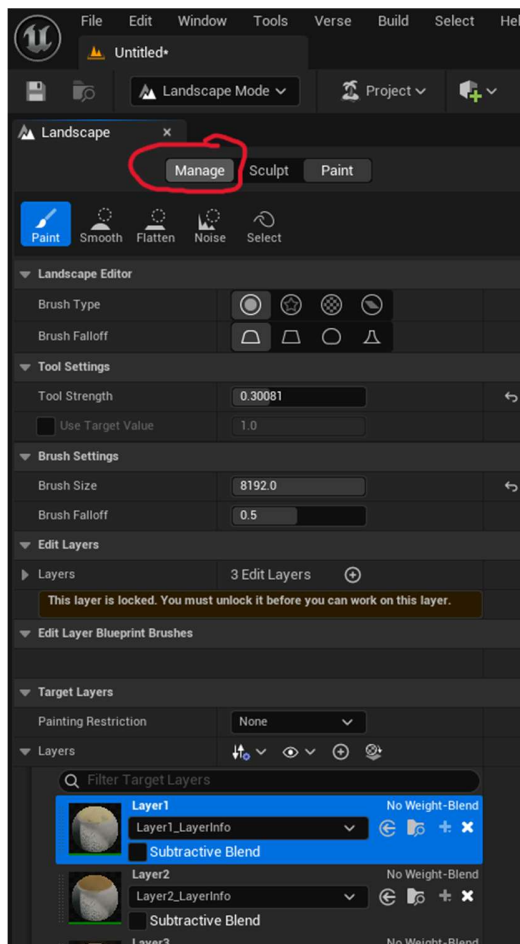

RizonStore.

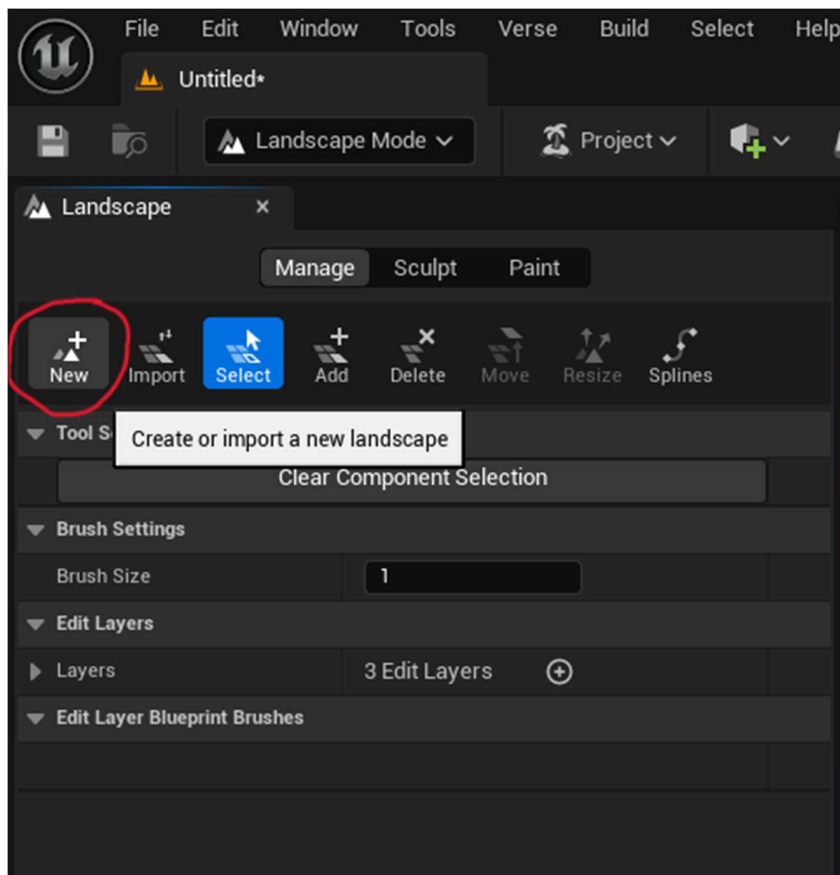

1/ In the Editor, change from **"Selection Mode"** to **"Landscape" mode**:

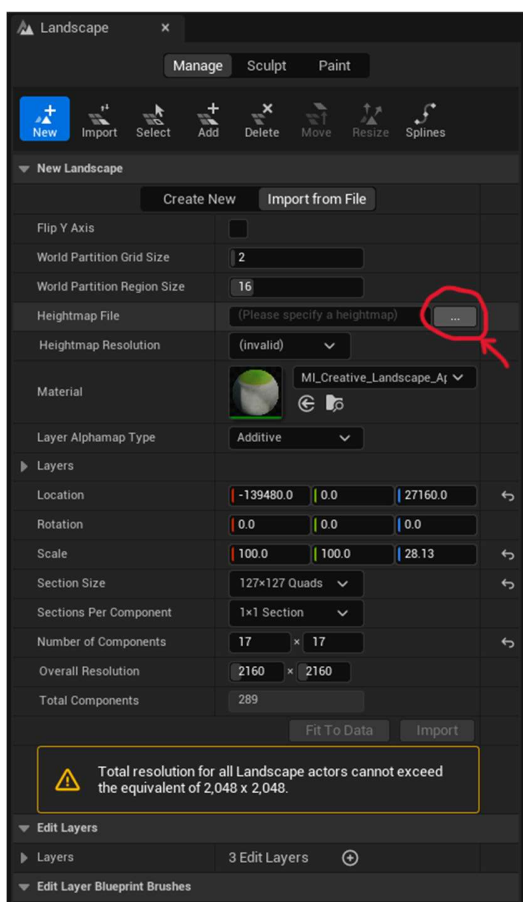

2/ Proceed to the **"Manage"** tab:

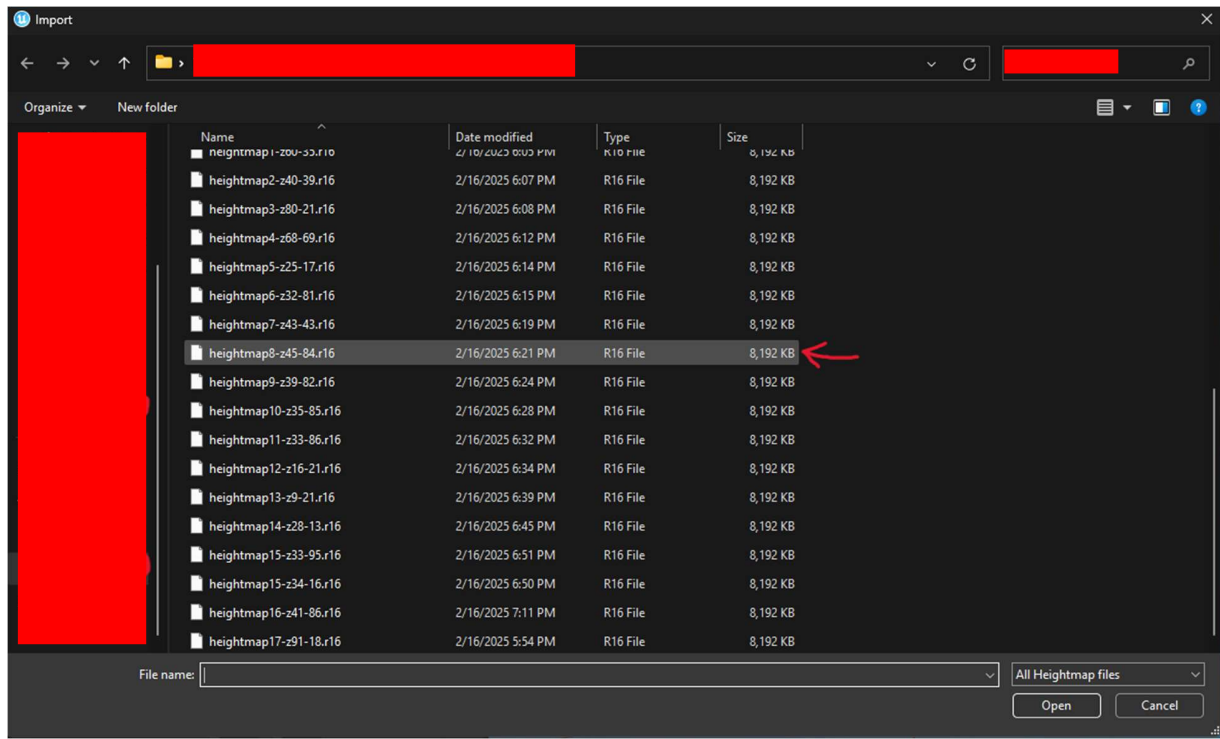

3/ Create a new landscape by using the **"New" button**:

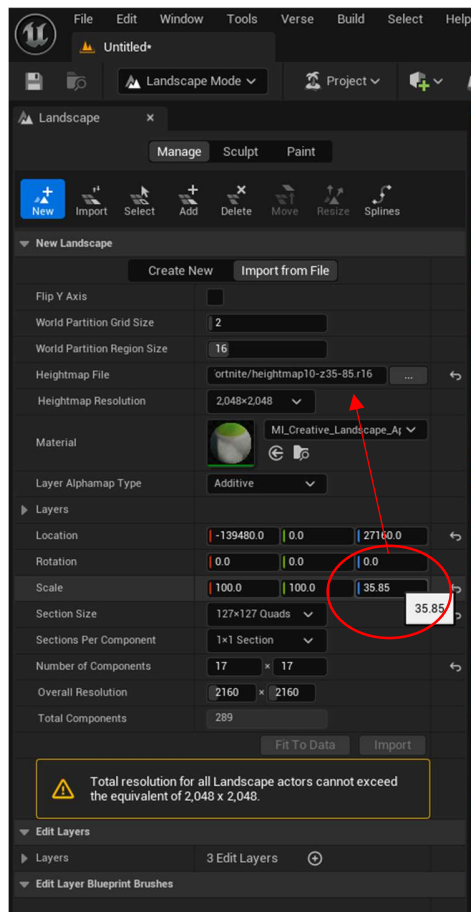

4/ From **"Import from File"** click on the **"..."** button next to **"Heightmap File"** to select an **heightmap** you purchased:

5/ Double-click on the **desired .r16 heightmap file to import** it into your Fortnite level.

6/ Adjust the landscape scale using the heightmap's name file:

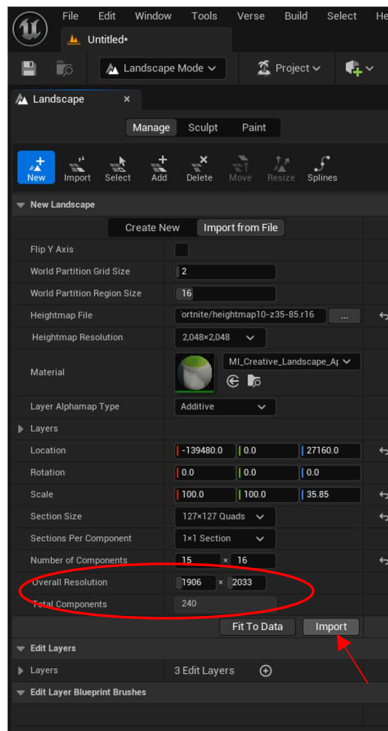

For Example:

heightmap13-z9-21.r16

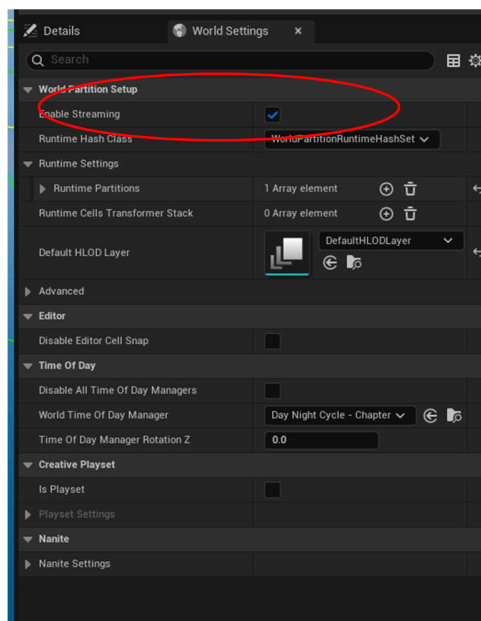

Then the Scale attributes will be:

X: 100 Y: 100 Z: 9.21

7/ Adjust the **"Overall Resolution"** until the message "all Landscape actors cannot exceed..." **no longer appears**, then click **"Import"**:

8/ Enable **Streaming** in **"World Partition Setup"**:

9/ **Congrats!** Your **Rizon SummitCraft** has been successfully added to your Fortnite level.
